SBC SWE Release 3.2 End of Life Notification

This is the End of Life announcement for Release 3.2 of the SBC SWE product. Sonus recently announced general availability of Release 4.1 of this product, and all existing customers should upgrade to this latest release as soon as possible. Release 4.1 has a number of benefits, including feature and bug fix parity with the rest of the Sonus Core SBC products.

Please Note Live Software Update is not available for upgrades from Release 3.2 to Release 4.1. The normal upgrade process will work, but we won't retain stable calls during the upgrade.

The product codes that will no longer be available are listed below

EOL Product Code	Description	Replacement Product Code
SBC-SWE-25-3.2	SINGLE SBC SWE SOFTWARE WITH 25 SIP SESSIONS, SCALES TO A MAXIMU OF 250 SESSIONS	SBC-SWE-25-4.1R0
