FREQUENTLY ASKED QUESTIONS

Frequently Asked Question	Answer
Why is Ribbon doing an EOL on SBC product codes?	Based on changes in market needs and numerous inputs from customers, Ribbon launched a new set of product codes leveraging tiered session pricing across SBC Core product portfolio on 15 th August 2018. The new set of product codes have been available for some time; therefore the “old” package product codes are being discontinued. SBC SWE product codes used for tiered features and Network wide licensing are being replaced with new product codes.
What action should be taken by customers and partners?	Ribbon recommends that customers start using new product codes available in Aug 2018 for all new orders. All existing contracts and quotes should be modified to use the new product codes.
Does this notification announce end of life of any SBC platforms?	No, this notification does not announce or modify end of life plans for SBC Core platforms. It is just product codes used earlier to order the product are end of life.
Does this notification declare End of Support for any SBC Core product?	No, all products are supported and orderable using new product codes (SKUs).
