End of Product Sale Notification of Legacy Subscription Offers (Annual Term, MRR) & Node Locked Licensing (NLL) for Public Cloud

Ribbon Communications, Inc. (“Ribbon”) is announcing the End of Product Sale (EoPS) dates for the following license offers as applied to Ribbon SBC Core (SBC 5400, SBC 7000 and SBC SWe), PSX SWe, and Insight EMS (Element Management System) products for feature activation:

- [Monthly recurring \(MRR\) term license](#) program
- [Annual term license](#) program
- [Node Locked Licensing \(NLL\) offers for Public Cloud](#)

As a replacement for the above offers, Ribbon is introducing **True Forward Subscription** License Program (“True Forward Subscription”). True Forward Subscription presents benefits sought after by customers seeking best of breed solutions in cloud deployment environments without significant upfront costs or long-term vendor commitment for Ribbon’s Cloud & Edge products.

Customers with active maintenance agreements are recommended to update their purchasing practices to order True Forward Subscription after the Last Time Buy date below.

PRODUCT LIFE CYCLE DATES

Milestone	Date
End of Product Sale Announcement: Date on which Ribbon has announced EoPS	August 29, 2023
Last Time Buy: Last date on which EoPS licenses can be purchased	November 30, 2023

FREQUENTLY ASKED QUESTIONS

Question	Answer
What action should be taken by customers?	Ribbon recommends that customers work with their Ribbon Account Channel Account Manager to plan their migration from their existing Annual Term/MRR subscription licenses or NLL public cloud deployment to True Forward Subscription.
Is True Forward Subscription supported with the EMS?	RAMP is required to support True Forward Subscription, it is not supported by EMS. Customers must plan to deploy the RAMP for any True Forward Subscription deployment.
Where can I find the details on Ribbon's software support policy?	Refer to end of product sale policy for details on Ribbon's software release cadence and support policy. https://ribboncommunications.com/company/company-policies/policies/product-life-cycle-policy
Why does this EoPS notice not have an equivalent replacement True Forward Subscription product code identified alongside a given EoPS product code?	True Forward Subscription product codes bundle product features across multiple products (e.g., SBC, PSX, RAMP, etc.) together, and as such do not map 1:1 with the EoPS product codes identified in this document.
May I continue to acquire NLL after November 30, 2023 to license product instances & features deployed in a public cloud, such as AWS or Azure?	NLL, like NWL, MDL & NWDL, does not apply to public cloud-based product deployments. Please contact your Ribbon Account or Channel Account Manager for information regarding True Forward Subscription, Ribbon's updated subscription license offer tailored for cloud deployments of all types.
How can I determine the appropriate True Forward Subscription product code for a given EoPS product code or multiple product codes?	Please review the applicable True Forward Subscription Licensing Guide for a list of available product codes.
Where can I get more information on True Forward Subscription?	Please contact your Ribbon Account or Channel Account Manager for more information.
