End of Product Sale and End of Support is Announced for Insight EMS

This bulletin serves as the notice that Ribbon Communications, Inc. (“Ribbon”) is announcing the End of Product Support for Insight EMS for all customers on November 30, 2024. This follows Ribbon’s prior announcement of End of R&D Support for the platform.

Moving forward, EMS functionality is incorporated into Ribbon Application Management Platform (RAMP), the next generation common management platform for Ribbon products. The product codes (or SKUs) for ordering EMS software are already obsolete as the last quote date was 31 December 2022.

All customers using Insight EMS are strongly recommended to work with their Ribbon Account or Channel Managers to plan their migration from EMS to RAMP prior to the ‘End of R&D Support’ date of June 30, 2024.

PRODUCT LIFE CYCLE DATES	
Milestone	Date
End of Product Sale Notification: Date on which Ribbon announced EoPS.	October 10, 2022
Last Quote Date: Date on which the affected product codes are no longer quotable.	December 31, 2022
End of Product Availability: Date on which the affected product codes are no longer orderable.	March 31, 2023
End of Product Delivery: Date on which the affected product codes are no longer available to ship from Ribbon.	March 31, 2023
End of R&D Support: Date on which the product will no longer receive software updates. Note: RibbonCare, RTS ‘best effort’ technical support, including access to SW upgrades, but without software patches, critical issue root cause analysis, or assurance of interoperability with other product releases (HW and SW), remains available for purchase. Please contact your Ribbon channel or account manager for details.	June 30, 2024
End of Support: Date at which the product can no longer be supported by Ribbon— Software Support and hardware repair/exchange availability ends.	November 30, 2024

Table Notes

1. The above dates are for planning purposes only and Ribbon reserves the right to change with notice.
2. A RibbonCare Service support term extending past an announced by Ribbon “End of R&D Support” date for a Software version will be entitled to Best Effort Ribbon Technical Support after the announced End of Ribbon R&D support date for that Software version.
3. Ribbon will offer RibbonCare for EMS systems until the EoS date of November 30, 2024. Ribbon will honor existing contracts which expire past the EoS date. No new RibbonCare contracts for EMS with terms beyond the EoS date will be issued past the EoS date.
4. Any previously sent and still outstanding RibbonCare support renewal quotes that include EMS support beyond the announced EoS date will be honored by Ribbon through the quote expiry date (typically the quote sent date + 90 days).

For more information on Ribbon’s Product Lifecycle Policy please visit our website [here](https://ribboncommunications.com/company/company-policies/policies/product-life-cycle-policy).

FREQUENTLY ASKED QUESTIONS

Frequently Asked Question	Answer
Why is Ribbon announcing End of Support (EoS) of EMS?	End of Support (EoS) is a standard part of Ribbon’s lifecycle process. This process began in October of 2022 when Ribbon announced End of Product Sale. Ribbon’s forward looking product strategy is centered on building a cloud-native architecture that supports multiple products and facilitates new application development. EMS is being superseded by RAMP.
What should existing EMS customers do?	Ribbon recommends that current customers work with their Ribbon Channel or Account Manager(s) to migrate to RAMP.
How long can I use EMS that I have already purchased?	Ribbon EMS will continue to provide R&D support until the ‘End of R&D Support’ date listed in this bulletin. Ribbon will offer RibbonCare for EMS systems until the EoS date of November 30, 2024. Ribbon will honor existing contracts which expire past the EoS date. Ribbon recommends that Customers migrate to RAMP.
What if I need to expand my EMS capacity?	Ribbon will support existing customer capacity expansion until the ‘End of R&D Support’ date listed in this bulletin. Customers should work with their Ribbon Channel or Account Manager(s) for expansion orders.
What is the final EMS SW release and its lifecycle?	Ribbon EMS R15.1 is the final software release. The ‘End of R&D Support’ date for EMS R15.1 aligns with the EMS product ‘End of Support’ date listed in this bulletin.
How does this announcement impact the other Ribbon products managed by EMS?	There is no impact on the functionality of the Ribbon products managed by EMS. Customers should validate any product interoperability via Ribbon Communications documentation. For any supported configurations, customers can continue to use Ribbon EMS. Please note the ‘End of R&D Support’ date and the ‘End of Support’ dates. Ribbon recommends that current customers

	work with their Ribbon Channel or Account Manager(s) to migrate to RAMP.
Does RAMP provide the same functionality as EMS?	RAMP integrates existing EMS functionality. There are a few EMS functions which are implemented differently in RAMP. Ribbon recommends that current customers work with their Ribbon Channel or Account Manager(s) for specific details.
What does RAMP provide beyond the EMS functionality?	RAMP provides a combined solution to manage both Core SBC and Edge SBC portfolios. RAMP's cloud-native architecture will enable new applications in the future, improving the customer experience in operations, planning, and support of their networks.
Will Ribbon provide Professional Services for the migration from EMS to RAMP?	Ribbon will make available Professional Services for the migration of EMS to RAMP. Customers should work with their Ribbon Channel or Account Manager(s) for specific details.
